

Create your dream living space

The conservatory collection

Discover *your dream conservatory*

Imagine a place in your home where you can retreat to and air into your property. A place just for you – tailored to your specification, accommodating your individual style.

Welcome to the world of luxury conservatories

Our luxurious conservatories substantially increase your living space and enhance your lifestyle. They should also add tremendous value to your property when the time comes for you to move on.

Enjoy your home - enhance your lifestyle

From the elaborate to the contemporary, our conservatories are designed with the market leading benefits that deliver highest-quality workmanship and exceptional value for money. An extensive range of styles enables the right character of conservatory to be chosen to suit your home. Plus, our coveted reputation for quality and reliability gives you confidence that you are choosing the very best.

One room, so many uses

Conservatories designed around you

A conservatory can offer you the space to relax, entertain or provide the additional room that a young family needs to grow. Designed to fit in with your lifestyle a conservatory can provide the additional space you are looking for - without the turmoil and expense of moving house.

Whatever style you choose, conservatories are versatile additions to a home - they transform living spaces and are the ideal way to add the second living room, home office or dining area that you have always promised yourself.

Design-engineered

for life-long performance

Every feature and aspect of our conservatories has been designed to provide life-long performance, so you can be assured total peace of mind for many years to come.

A complete solution

Unlike some companies, we exclusively use PVC-U sourced from one supplier to manufacture your complete conservatory roof, windows and doors. This means every component will perfectly colour match throughout the life of your conservatory.

Intelligent design

A careful attention to design detail has resulted in one of the most advanced conservatory systems currently available. This specifically means there is a minimal reliance and requirement for on-site sealants and silicone to achieve water tightness. This overcomes potential for leakage and ensures rainwater always stays on the outside.

Independent accreditation

All products are fully accredited by the British Board of Agrément (BBA), the UK construction industry's leading independent authority on building products quality. This means your conservatory design has been thoroughly tested for structural strength and air and water tightness.

The Victorian

A classical, period extension to your home

Striking and distinctive

Inspired by Victorian design and architecture, complete with ornate cresting and finials, it's easy to see why the Victorian is one of the most popular styles of conservatory.

Thanks to its impressive versatility, the Victorian will complement most types of property, adding extra light, air and grandeur to your home. Available in 3 and 5 faceted versions, it is readily adapted to fit into whatever space is available – from a large garden to a small patio area.

Lean-to

The simple, affordable way to improve your home

Stylish and cost-effective

The Lean-to conservatory makes the best possible use of your available space, whilst providing a light and airy room for you and your family to enjoy all year round. Contemporary and minimalist, with clean aesthetic lines, the Lean-to creates a luxurious link between your house and garden at an affordable price.

Designed to run across the back of your home, the ends of your Lean-to design can be finished either vertically as gable ends, or be hipped back diagonally from one or both front corners.

Lantern

The ultimate aesthetic appeal

Unique and elegant

Lantern roofs consist of a roof in two tiers. The different levels are separated by a row of small windows adding a feeling of height and presence to the overall structure. The use of glass rather than polycarbonate also increases light levels and gives you an uninterrupted view of the sky above.

If you are looking to increase the sense of interior space within your conservatory and you want to create a majestic visual appeal - a Lantern roof will give you the perfect finishing touch.

Optional features

Personalise your dream conservatory with our range of accessories and finishing touches

Glass

We offer a range of glazing options in a variety of finishes and thickness. Glass can maximise light and noise but may also be specified stained, leaded or with bar inserts. Conservatory roof glass may also be chosen to keep itself clean while also keeping you cool in the heat of summer and warm in the chill of winter.

PILKINGTON

Polycarbonate

High-tech modern polycarbonate may also be selected for your conservatory roof. The variety of options and colour finishes available may provide privacy from above or reduce the direct glare and heat of sunlight. Foil inserts are also available to reduce solar gain and are a great way to add character to your conservatory.

We offer a wide selection polycarbonate to choose from

Ventilation and cooling

Introducing additional ventilation can increase both enjoyment and comfort levels within your conservatory. That's why we offer a selection of both mechanical and electrically operated roof vents in a range of sizes. These have been designed to be both efficient and easy to use while at the same time offering maximum levels of ventilation. Ceiling fans may also be considered to help circulate the air and complement the look of your conservatory.

Crestings and finials

Two different styles and designs are available to give a distinct individual look. Indicative of the commitment to quality behind all of our systems, the Jacobean style is available in PVC-U and the Regency in aluminium, both designed to last for decades to come.
